Aloe in syrup

Application: Food additives, Juice, Jelly, Canned etc.

Aloe is known as magical medicine of nature, great physician of nation. The diced aloe, which we packaged into aseptic bag, is fresher, larger size and more crispy. It's more convenient for the customer to use in the industries where they want to use.

The taste of our final fruit cube is more near original one, the fruit cube is hard, fresh and not too much damaged by heating processing. We deal with the fruit that is more temperature sensitive, not so easy to keep, and not so easy to keep cube shape.
